IDENTIFIERS	*Kentucky

ABSTRACT

The fact book provides information about the Kentucky Community and Technical College System (KCTCS), which consists of 13 community colleges and 15 technical colleges. It presents the strategic plan, core functions, timeline, statistical facts, Board of Regents, President's cabinet, and instructional programs. The mission of KCTCS is to improve the quality of life and employability of the citizens of the Commonwealth by serving as the primary provider of postsecondary education programs, training and services. In fall 1999, the number of students pursuing credit enrollment was 45,988. During the academic year of 1998-1999, 94,074 students were enrolled for workforce training/continuing education. One significant piece of KCTCS continuing education focus is fire and rescue training. In 1998-99, KCTCS served 60,061 fire and rescue students who worked for 1,091 agencies. Credentials granted during 1998-99 are as follows: 3,138 associate degrees; 2,626 diplomas; and 581 certificates. The 1999-2000 budget was $330 million. In order for Kentucky to attain the goal declared by the General Assembly to reach the national average in quality of life by the year 2020, KCTCS must be a comprehensive system that ensures reasonable access to transfer programs, workforce training, and remedial and continuing education. Message from President McCall

Thank you for taking this opportunity to learn more about the Kentucky Community and Technical College System. As the founding president of KCTCS, I would like to share with you some information about our system.

KCTCS was created by the Kentucky Postsecondary Education Improvement Act of 1997. KCTCS blends two education systems with long histories of service to Kentucky: 13 community colleges and 15 technical colleges. In this powerful new alliance, KCTCS provides accessible and affordable education and training through:

- Academic and technical associate degrees.
- Diploma and certificate programs in occupational fields.
- Pre-baccalaureate education.
- Adult, continuing and remedial education.
- Customized training for business and industry.
- Distance learning opportunities.

Our colleges also sponsor an array of fine-arts programs that enrich their communities.

KCTCS institutions offer federal financial aid. Credits from our institutions transfer within the system and to four-year universities. All coursework taken within the general education block leading to the associate in arts or associate in science degree can be transferred to all public universities in Kentucky.

To find out more about KCTCS, call the system office at 1-877-528-2748 (246-3146 in Lexington), or contact the campus nearest you.

Michael B. McCall

Strategic Plan

Vision

To create, by the year 2020, a comprehensive community and technical college system recognized as the nation's best.

Mission

The mission of the Kentucky Community and Technical College System is to improve the quality of life and employability of the citizens of the Commonwealth by serving as the primary provider of the following postsecondary education programs, training and services:

- Certificate, diploma, technical degree, associate degree, and transfer programs
- Workforce training to meet the needs of existing and new businesses and industries
- Remedial and continuing education
- Short-term, customized training for business and industry
- Adult education
- Associated services

Values

- Mission-driven goals
- Quality programs and excellence in teaching
- Student success and lifelong learning
- Open access with responsive delivery
- Positive culture with trust, respect and open communication

Core Functions of KCTCS

The General Assembly declares on behalf of the people of the Commonwealth the following goal to be achieved by the year 2020 ... a comprehensive community and technical college system that ensures reasonable access throughout the Commonwealth to:

1. A two-year course of general studies designed for transfer to a baccalaureate program.
2. The training necessary to develop a workforce with the skills to meet the needs of existing companies and to attract new and expanding businesses and industries.
3. Remedial and continuing education to improve the quality of life and employability of the citizens of the Commonwealth.

– Excerpt from the Kentucky Postsecondary Education Improvement Act of 1997 (House Bill 1)

In House Bill 1, Governor Paul E. Patton and the General Assembly established an ambitious agenda that calls for Kentucky to reach the national average in quality of life by the year 2020.

If Kentucky is to attain that goal, KCTCS must play a major role. According to Governor Patton's Education Pays campaign, a person who receives an associate degree will earn, on average, a half-million dollars more in his or her lifetime than a high school dropout.

To serve the needs of employers and to ensure the success

BEST COPY AVAILABLE

of students, KCTCS focuses on providing education and training to support economic development through the following types of programs:

- **Academic and technical courses for credit-seeking students.** KCTCS colleges enrolled about 46,000 full- and part-time students in credit courses in fall 1999, an increase from a year ago.

  The technical colleges offer 63 programs in eight general areas, while the community colleges offer 33 programs with 22 special options. Approval of new programs has greatly accelerated since KCTCS was established.

- **Workforce training/economic development.** KCTCS has been at the forefront of education and training projects that have benefited major employers such as UPS, SHPS and BellSouth.

  In 1998-99, KCTCS provided non-credit training for 94,074 students in 7,476 classes. Those students represented 2,404 companies served.

- **Non-credit community and continuing education.** Continuing education programs at colleges offer a wide range of courses – from computers to home and garden to career development to communication to arts and leisure.

One significant piece of KCTCS' continuing education focus is fire and rescue training. In 1998-99, KCTCS served 60,160 fire and rescue students who worked for 1,091 agencies.

Timeline

May 1997 – Governor Paul E. Patton signs Kentucky Postsecondary Education Improvement Act of 1997, which creates Kentucky Community and Technical College System.

July 1997 – Governor appoints eight citizen members of KCTCS Board of Regents.

September 1997 – Elections are held to fill six faculty, staff and student positions on Board of Regents.

November 1997 – Technical institutions' accreditation agency, Council on Occupational Education, approves substantive change in governance proposal.

January 1998 – Community colleges' accreditation agency, Southern Association of Colleges and Schools, approves substantive change in governance proposal. Management of community colleges is transferred from University of Kentucky to KCTCS.

June 1998 – Board of Regents hires Dr. Jeff Hockaday of North Carolina as interim president.

July 1998 – Technical institutions are transferred to KCTCS from state government and become technical colleges. Council on Postsecondary Education approves first KCTCS associate degree programs.

December 1998 – Board of Regents hires Dr. Michael B. McCall as founding president of KCTCS.

January 1999 – KCTCS System Office moves from Frankfort to Lexington.

April 1999 – Board of Regents approves resolution that opens door to consolidation of functions, services and programs in community and technical colleges.

July 1999 – CPE approves first degree programs for technical colleges.

September 1999 – McCall is inaugurated as founding president of KCTCS.

Facts about KCTCS

Instructional Programs

At KCTCS community colleges, all coursework within the associate in arts or associate in science degree can be transferred toward a bachelor's degree at any public university in Kentucky. Here are other programs in which KCTCS community and technical colleges offer certificates, diplomas and/or associate degrees:

Accounting & Finance Technology
Agricultural Technology
Air Conditioning Technology
Applied Process Technology
Apprenticeship Studies
Auto Body Repair
Automated Systems Technology
Automotive Technology
Aviation Maintenance Technology
Barbering
Biomedical Equipment Technology
Business Technology
Carpentry
Child Care
Cosmetology
Clinical Laboratory Technician
Commercial Art Technology
Computer-Aided Drafting
Computer Applications Technology
Computer Information Systems
Construction Technology
Culinary Arts
Dental Hygiene
Dental Technology
Diagnostic Medical Sonography
Diesel Technology

Instructional Programs (continued)

Early Childhood Education
Electrical Technology
Electronics Technology
Emergency Medical Technology
Engineering Technology
Environmental Technology
Fire & Rescue Training
Forest & Wood Technology
Graphic Communication Technology
Health Sciences
Heavy Equipment Operation
Horticulture
Human Services
Industrial Automation Technology
Industrial Chemical Technology
Industrial & Engineering Technology
Industrial Maintenance Technology
Industrial Plastics Technology
Information Technology
Interior Design
Law Enforcement Technology
Legal Office Technology
Machine Tool Technology
Major Appliance Technology
Manufacturing Systems Technology
Masonry
Medicaid Nurse Aide
Medical Administrative Services
Medical Assisting
Medical Laboratory Technology
Medical Office Technology
Medication Aide

Instructional Programs (continued)

Metal Fabrication
Multimedia Technology
Network & Information Systems
Nursing
Occupational Therapy Assistant
Office Systems
Office Technology
Paramedical Technology
Pharmacy Technology
Physical Therapist Assistant
Plumbing
